ICMSC 2019 Call for Papers

June 21-23, 2019, St. Petersburg, Russia

http://icmsc.org/

ICMSC 2019 - 2019 the 3rd International Conference on Mechanical, System and Control Engineering

Organized by **Science and Engineering Institute**, supported by Magnitogorsk State Technical University, Russia, Samara State Aerospace University, Russia and Novosibirsk State Technical University, Russia. **The 3rd International Conference on Mechanical, System and Control Engineering (ICMSC 2019)** will take place **at St. Petersburg, Russia during June 21st-23rd, 2019.**

This workshop provided not only with essential knowledge but also a great opportunity to share experiences in different issues. This exciting event aims to bring together a wide community of engineers, scientists and practitioners from different fields with the objective of exchanging and sharing their research results as well as experiences and new ideas. Such platform is ideal to further discuss, even informally, the practical challenges encountered and the solutions adopted.

➢ **IMPORTANT DATE& SUBMIT**

Full paper submission	February 5, 2019	Acceptance Notification	February 25, 2019
Registration Deadline	March 20th, 2019	Camera-ready	March 20th, 2019
Conference date	June 21-23, 2019		

➢ **Submission Method:**

Online submission (PDF file only)
https://easychair.org/conferences/?conf=icmsc2019

➢ **HISTORY**

- ICMSC 2018 proceedings published by MATEC Web of Conferences Volume 220 (2018) has been online.
- ICMSC 2017 proceedings published by IEEE has been online and indexed (EI Compendex & SCOPUS).

➢ **PUBLICATIONS**

Accepted full papers of ICMSC 2019 will be published by Conference Proceedings with ISSN number, which will be online & indexed by Scopus and EI Compendex.

Special Issue

Some excellent papers will be recommended to the "Special Issue on Advances in Mechanics of the Motion of a Spacecraft in Space and During its Descent" in the International Journal of Mechanical Engineering and Robotics Research (IJMERR); (ISSN: 2278-0149), Indexed by: Scopus (since 2016), Index Corpernicus, ProQuest, UDL, Google Scholar, Open J-Gate, etc.

- TOPICS

ICMSC 2019 covers, but not limited to, the following topics:

Control systems and mechanical engineering
Acoustics and noise control
Aerodynamics, applied mechanics and control systems
Automation, mechatronics and robotics
Automobiles and automotive engineering
Biomechanics and biomedical engineering
Body and chassis development
Composite and smart materials
Compressible flows
Computational mechanics and techniques
Driver/vehicle interface, information and assistance systems
Dynamics and vibration
Energy engineering and management
Engineering materials fatigue and fracture
Fluid dynamics, fluid mechanics and machinery
Fuels and combustion
Instrumentation and control
Internal combustion engines
Machinery and machine design
Manufacturing and life cycle engineering
Manufacturing and production processes
Material science and processing
Mechatronics and mechanical design
Mechanical power engineering

Cloud Computing and Services
Nanomaterial engineering
New and renewable energy
Non-destructive evaluation
Nonlinear dynamics
Pc guided design and manufacture
Plasticity mechanics
Pollution and environmental engineering
Power-train solutions
Powertrain technology
Precision mechanics, mechatronics
Production technology
Quality assurance and environment protection
Resistance and propulsion
Resources and ecology
Robotic automation and control
Simulation and testing
Structural dynamics
System dynamics and simulation
Textile and leather technology
Transportation challenges in emerging markets
Vehicle design and manufacturing
Vehicle dynamics and intelligent control systems
Vehicle safety
